	Page 10	Contents/Index
	Page 11	List of Figures
	Page 12	List of tables
	Page 13	List of screens
	Page 14	Abbreviations

Chapter pages: Every chapter includes

First Line Contains chapter number as follows

Chapter–X (Position: Top-Middle, Font: TNR, Size: 16
Bold, Sentence Case, Where X is chapter number)

Second Line Chapter name (Position: Top-middle, Font: TNR, Size:16
Bold, All caps, Where X is chapter number)
Follows 2 line space, then contents in the chapter.

The arrangement of paragraph in a Chapter:

Each main topic Title in a chapter should be properly numbered for example in chapter 2, it should be: 2.1, 2.2. etc., (Font: 14, TNR, Bold and Upper case) where, the first digit represents the Chapter number, and second digit, the topic Title number in serial order.

Sub-topic titles, if any, may be indicated as 1.1.1, 1.1.2, etc. (Font: 14, TNR, Bold and title case) i.e. the first digit representing the chapter, the second representing the topic title and the third representing the sub-topic title.

Photographs and Tables:

The photographs and tables occurring in a chapter may be serially numbered as Fig: 1.1, 1.2 etc., where the first digit represents the chapter, the second digit represents figure number.

The photograph may be represented as: Screen 1.1, 1.2 etc., the first digit representing chapter and the second representing the photograph number.

Bibliography or References:

The following format may be used for the Bibliography / References:

For Book

Sl. No	Author (s)	Book	Publisher	Year	Pages (PP)
--------	------------	------	-----------	------	------------

For Journal / Proceedings

Use MLA format

Documentation : Spiral Binding.

Important Note:

1. Every diagram, figure, table and screen shot should be explained and it should be referred in the documentation.
2. Every chapter should contain information related to the base paper and your project work. It should not be in general.
